SKILLS

- Amazon Web Services (AWS)
- Frontend: HTML, CSS JavaScript, React.js, Next.js
- Backend: Node.js, Express.js, Python
- Database: MongoDB, MySQL
- Tools: Git, GitHub, VS Code
- Data Structures
- Object-Oriented programming

CERTIFICATION

- Introduction to Information Technology and AWS Cloud
- Google Cloud – Introduction to Generative AI
- Infosys Springboard – Web Development Essentials
- Coursera – AI for Everyone

PROFILE

Full-stack web developer with MERN stack and AIML experience, passionate about developing impactful web solutions and exploring cloud technologies and AI/ML. Proficient in both frontend and backend development with AWS cloud experience. Demonstrates rapid learning ability and strong teamwork skills.

PROJECTS

PathfinderEdu – Career Navigator Web App (FULL STACK)
Career guidance platform for students after 10th & 12th
Full-Stack MERN Application
- Developed frontend with React.js, Next.js, and responsive UI design
- Built backend using Node.js + Express, integrated with MongoDB
- Features: Career exploration tools, entrance exams database, scholarship listings, and role-based dashboards

Python Voice Assistant with Face Recognition & GUI
Multi-functional desktop assistant with smart features
- Built in Python, integrating Voice Command, Face Recognition, and a desktop GUI
- Web-based frontend using HTML, CSS, and JavaScript
- Backend engine handles command processing, device control (via ADB), and uses SQLite for local storage
- Implements OpenCV for face detection and recognition using Haarcascade
- Includes Android integration, offline capabilities, and facial authentication system

Nagrik Aur Samvidhan – Gamified Constitution Learning Tool
Interactive civic literacy platform
- Simplified Indian Constitution articles (Part IV & IV-A) into Hinglish
- Designed backend to map articles into interactive formats like quizzes, cards, and board games
- Targeted at students, youth, and general citizens for awareness and civic education
